## LUBRA LEGENDARY TRIAL

### OVERVIEW

Mountain Biking in Lubra Valley

One of the best short Mountain Bike Trips in the Himalaya, mountain biking Lubra Valley is for riders seeking the thrills of high altitude Enduro and have limited time. The trip starts and ends in the lovely lakeside town of Pokhara. We fly you into the small mountain airstrip at Jomsom, the heart and soul of the Lower Mustang Region and meet our shuttle driver. We have some breakfast while assembling the bikes and from here the single track riding fun begins!

The trails are wild and this is all part of the unique adventure of enduro mountain biking in Nepal. The trails are all raw and natural, varying from loose sand and rocks to fast flowing forest sections, technical steep stone steps and switchbacks. The legendary trails of Lubra Valley will test every part of your riding skill and a good measure of your fitness.

This trip is fully jeep supported. Our experienced drivers are an essential part of our team and will get you as close to the top of the trails as possible and getting there is also part of the adventure!

“

### TRIPS HIGHLIGHTS
