OVERVIEW

This ride is a MUST on the bucket list of every hardcore Enduro purest, as it surely is a lifetime experience. The beauty of this trip is the trail options, while what's written in the itinerary is our standard program, if you're the adventurous type, then let our guides take you to explore many of the other options.

The team at WHEEL EXPEDITION is super excited to bring this special, first-time in Nepal itinerary to you. "Upper Mustang — Kingdom of Enduro". The new road development has brought us access to one of the most remote wildernesses in the Nepal Himalayas, giving us unlimited access to some of the very best hidden trails on this desert-like tundra of jagged cliffs, rolling plains, moraines, and river valleys. One of the highlights of the journey is visiting the remote Kingdom of Lo Manthang, just below the Chinese border.

Right from the far reaches of the barren Chinese border all the way down to the rich and fertile Deepest Gorge in the World, our guides will take you on a journey along trails that have, for centuries, only been trodden by Yaks and Nomads. Not only will some of these trails blow your mind and have you shouting "Yahoo" at the top of your lungs, they will also take you into the heart and soul of the nomadic and little-explored lifestyle and culture of the Lopa People of the region. There is no trip like Upper Mustang Enduro for this.

The tour is pure, old-school Enduro in every sense. This means that while you will have some of the sections shuttled, there is still plenty of grunts and grind uphill and some even tougher sections of push and carry. These sections are there because the downhill is epic and worth your sweat, curse words, and effort.

During the journey, we stay overnight in authentic Tea houses and enjoy local food, music, culture, and people.

This ride is a MUST on the bucket list of every hardcore Enduro purest, as it surely is a lifetime experience. The beauty of this trip is the trail options, while what's written in the itinerary is our standard program, if you're the adventurous type, then let our guides take you to explore many of the other options.

Who knows you could find your own unriden trails. Sign up for this Upper Mustang Enduro trip today.
